

## FOR IMMEDIATE RELEASE

### QualTrax, Inc. and Integrated Imaging, LLC. form Strategic Partnership

**BLACKSBURG, VA, January 31, 2005** – QualTrax, Inc. and Integrated Imaging, LLC., today announced that they have formed a new partnership to provide even more comprehensive document management solutions for their customers.

As part of this new partnership, QualTrax will introduce a new scanning module addition to its already robust enterprise document management software solution. The scanning solution, which utilizes Integrated Imaging technology, will be a turnkey feature allowing customers to more easily scan documents and manage them within QualTrax. This new module will be released early in 2005. In addition, Integrated Imaging's services will be directly available to support QualTrax customers who may require assistance in high-volume document scanning projects.

According to Daryl Scott, Director of QualTrax, "Integrated Imaging has proven itself as a leading provider of document imaging solutions and services for many years." Scott adds, "We look forward to introducing our customers to the added benefits that this integrating scanning capability will bring to their document management solution." Chuck Hawthorne, Managing Partner of Integrated Imaging comments, "QualTrax continues to gain market share with customers in highly regulated industries, such as Food and Beverage and Pharmaceuticals. We believe this partnership with QualTrax will enable us to provide sophisticated scanning technology and services to an even wider range of customers."

#### About QualTrax, Inc.

Serving manufacturing, food and beverage and the life sciences industries since 1993, QualTrax is the document management software of choice for top companies such as ExxonMobil, GE Plastics, and the U.S. Navy. QualTrax provides a comprehensive web-based document management environment that is especially valuable for companies working in regulated industries that must comply with ISO, QS, FDA, HACCP or other guidelines. QualTrax provides never-before-realized efficiencies by greatly simplifying electronic document and enterprise content management, workflow tracking and business/manufacturing process control. It provides enterprise-wide access to critical information from the production line to the executive offices. QualTrax, Inc. is a subsidiary of CCS-Inc., an ISO 9001:2000 certified company which provides computer hardware, integration, design and engineering services for OEMs and industrial clients.
